

European Research Council

Established by the European Commission

Visits of Foreigner Experts

There will be funding from the European Research Council ERC project "Quasiconformal *methods in analysis and applications*", directed by Daniel Faraco devoted to the visit of high quality researchers to the campus UAM-ICMAT.

Length: There is the possibility of visits from one week to three months.

Allowance: The allowance will be 1.200 euros per week depending on the specific situation. It will be devoted to cover travel expenses, accommodation and research expenses.

Objectives and duties: The foreigner experts are expected to work in the lines of the Project QUAMAP" and interact with young researchers from the group.

Candidates and Selection: The candidates will be leading experts in the field or young researchers. Application should be sent to daniel.faraco@uam.es

Daniel Faraco Hurtado

Principal Investigator of the Project QUAMAP
